

267 ,I don't know of any such same.

268 ,You're in forest.

269 ,You are in a small clear area inside the forest. There is a hole i
n the

270 ,ground going down into a cave passage.

271 ,You're at hole in the ground.

272 ,You are at the bottom of the hole in the ground. A passage goes SW

273 ,You are in a very wide room with an exit north. White chemicals co
ver

274 ,the walls, filling the room with a blinding white light.

275 ,You're in light room.

276 ,You are on an observation platform overlooking the surrounding cou
ntry

277 ,side. The platform is smooth rock, making it impossible to climb d
own.

278 ,A dense forest and a small lake are seen. In the center of the for
est

279 ,is a small building. Stairs lead down back into the cave.

280 ,You're on observation platform.

281 ,You are in a spaceship lit by flashing red and blue lights on it's

282 ,walls. There is a control panel marked "MANUAL" which is utterly

283 ,destroyed. An open door leads out.

284 ,You're in spaceship.

285 ,You are in a dark north-south tunnel.

286 ,You are in a room at the junction of three tunnels, which go north

287 ,south, east-west, and NE-SW.

288 ,You're at junction of tunnels.

289 ,You are in an east-west tunnel with stairs going up.

290 ,You are at an entrance to an ancient coal mine. A dark mine shaft
goes

291 ,down. It would appear to be climbable.

292 ,You're at mine entrance.

293 ,You're in the mine. The floor is a grating. The shaft goes up and
down.

294 ,You are in a small, dark room at the bottom of the mine shaft. The

296 ,You are in a small room with stairs going north, south, and up.

297 ,You're in carbide room.

298 ,This is a room which was once the control room for an ancient

299 ,spaceport. Star maps, navigational equipment and other techno-

300 ,logically advanced devices cover the wall. Exits are SE and west.

301 ,You're in control room.

302 ,This room was once the waiting room for passengers of the

303 ,ancient spaceport. There are exits NE, north, and west.

304 ,You're in waiting room.

305 ,You're in what was the observatory for the ancient cities.

306 ,You are standing on a launching area for spaceships.

307 ,You are on a strange planet, in a small building. A door goes out.

308 ,You are in a diagonal (NE-SW) passage.

309 ,You are at the top of a smooth, steep metal ramp. A dim light may
be

310 ,seen at the bottom of the ramp. There are also exits E, NE, N, and
S.

311 ,You're at top of ramp.

312 ,You are at the edge of a large bog. A passage goes NE.

313 ,You are standing north of a large, wooden door.

314 ,You are in an elevator with the door at the south end.

315 ,You are in a north-south passage which has a dead end at the north
end.

316 ,You are in a large room with a large stairwell ascending.

317 ,This room has the shape of a sphere, with holes in all major direct
ions.

318 ,You are in a maze of twisty little passages, all alike.

319 ,You are in an extremely dark room. Clouds of black smoke

320 ,obscure your vision, but you can see a hole going down.

321 ,You are standing west of an empty-barrel shaped room.

322 ,You are in a large empty barrel.

323 ,You are east of the empty barrel room. A passage goes NE.

324 ,You are at the east end of a long cylindrical room. A passage

325 ,leads off to the north, another to the east.

- 326 ,You are in a former recording studio for Gnome Records L.T.D.
- 327 ,You're at east end of cylindrical room.
- 328 ,You are at the west end of the cylindrical room.
- 329 ,There is a hole in the ceiling high above you.
- 330 ,You are south of the gate to the City of Gnome. There is a steep
- 331 ,cliff on your left.
- 332 ,You're at Gnome gate.
- 333 ,You're in the city of Gnome. Exits go north and south.
- 334 ,You are in one of the closets in the city of Gnome.
- 335 ,This is the Alaska room. The temperature here is a balmy
- 336 ,40 degrees below zero (233.16 Kelvin).
- 337 ,You're in Alaska room.
- 338 ,You are in a room with exits south and SE.
- 339 ,This room has exits N and NW.
- 340 ,You are on a passage walking along the side of a mountain. Far below,
- 341 ,you can see some ancient buildings.
- 342 ,The path here exits from southeast to south.
- 343 ,You are on a passage going SE to E, overlooking an active volcano.
- 344 ,This room has exits east and west.
- 345 ,This room has exits north and south.
- 346 ,You are in what used to be a garbage dump for the ancient cities,
- 347 ,although the garbage has long ago been eaten by rats.
- 348 ,You're in garbage dump.
- 349 ,You are in a hall with doors east, west, and south.
- 350 ,You are in the city of the Dwarfs, with buildings too small to enter.
- 351 ,You are south of a great door, probably built by dwarfs.
- 352 ,You are in a short passage going east-west. An intersecting
- 353 ,passage goes north, and to the south is a door locked from the other
- 354 ,side.
- 355 ,You are at the entrance to a large, beautiful ancient city. The
- 356 ,buildings are remarkably well-kept, considering that they have been

358 ,city going north, and the city is on your south.
359 ,You're at city entrance.
360 ,This was once the post office for the ancient city.
361 ,This was once the drug store for the ancient city.
362 ,You are in a perfectly square room, with passages in all directions.
363 ,There is nothing here.
364 ,The path along the side of the mountain which you are on becomes
365 ,increasingly narrow here. There is a sign here which says "DETOUR"
366 ,with an arrow pointing to a southward path which goes into the
367 ,mountainside. The path you are on continues east-west.
368 ,You're at detour entrance.
369 ,You are walking along a newly-constructed passage which goes north
370 ,west along the side of a mountain. The western end of the path looks
371 ,extremely narrow.
372 ,You're on newly-constructed passage.
373 ,You are at a relatively wide area on the mountainside. From the looks
374 ,of things, this would appear to be the site of a construction project
375 ,which never got finished. The finished path exits east, but an old
376 ,narrow path continues west.
377 ,You're at construction site.
378 ,The narrow path ends here.
379 ,You are in a low cavern with stairs going down and a northern exit.
380 ,You are in a large and beautiful ancient city. To your east, northeast,
381 ,west and southwest are enterable buildings. To the other directions
382 ,are roads. Written on a sign on the northwest road is,
383 , "YOU MUST HAVE AT LEAST 380 POINTS TO COME THIS WAY!"
384 ,You're in city.
385 ,You are at the bottom of the mountain. You can see a path along

387 ,You're at bottom of mountain.
388 ,You are in a low area, surrounded by high cliffs. A set of stairs
389 ,leads up, and a passage goes east.
390 ,You're at bottom of stairs.
391 ,You are standing on the north edge of a giant chasm. There is a
392 ,passage which goes east to west, as well as stairs which go down.
393 ,You're at the north side of the chasm.
394 ,You are in a wide room adjoining a north-south passage.
395 ,You are in a small room with exits to the north and west.
396 ,You are in a medium-sized room. The walls are all painted yellow.
397 ,The room intersects with an east-west passage.
398 ,You're in yellow room.
399 ,You are in a room which is completely painted green (obviously,
400 ,the variety of dwarfs which inhabit this city have bad color sense
401 ,and worse taste). Two passages from the west and south meet to for
402 ,one going northeast.
403 ,You're in green room.
404 ,You are in a round room, with walls of white porcelain. The only
405 ,exit is a hole in the ground, which slants downward. The ceiling
406 ,of the room is apparently too high to be seen.
407 ,You're in porcelain room.
408 ,You are at the end of a short passage. There is a well here, in wh
409 ,the bottom can not be seen. Written here is, "KILL THE MORON!!!!!"
410 ,You're at well top.
411 ,You are at the far side of the volcano, on an east-west passage.
412 ,You are at the south end of the city. A sign here says, "SPACE
413 ,WARP ENTERANCE". Space warps were used in this city for transporta
414 ,before more efficient methods were developed. On your south is the
415 ,space warp.
416 ,You are at the space warp entrance.

417 ,You have entered what appears to be home for one of the inhabitants
418 ,of the ancient city. The room is unfurnished; evidently the furniture
419 ,is stored somewhere until needed. The exit is east.

420 ,You're in woman's home.

421 ,You are standing west of the vault of the ancient city, where it's
422 ,most valuable treasure is kept.

423 ,You're at vault.

424 ,You are on the north side of a large chasm, on an east-west passage.

425 ,You are in a narrow, winding passage which exits west and east.

426 ,You are in a room where everything seems to go backwards. The exits
427 ,to this room are on the north and southwest, apparently.

428 ,You're in backwards room.

429 ,You are in a very wide room with exits northeast and southwest.

430 ,You are in a small square room with exits on the SW and NE corners

431 ,You are at the top of the stairwell. This room is somehow positioned

432 ,so that all of the cave is visible from here, but this room cannot

433 ,be seen from inside the cave. Sunlight pours in from above, indicating

434 ,that this room is somewhere above ground.

435 ,From this room you can see a forest, with both a lake and a building

436 ,inside. There is an entrance into a cave, and in the cave there

437 ,are the remains of three cities, one deserted, the other populated

438 ,by short beings. Above the cities there is a mine, and to the west

439 ,the ancient spaceport.

440 ,The sorceress is standing here. She says to you, "One such as you who

441 ,has solved the mysteries of this game, is surely fit to be the king

442 ,(at least)." As she speaks, the people in the ancient city rise up

443 ,from the ground and from the objects lying around the cave. You be
